Communication Skills

• Oral presentations- I have presented many topics and projects through my Bachelor and Foundation studies and taught many various subjects both in Arabic and English.

• Writing reports- I have written a lot of reports about different topics since primary school.

Linguistic Skills

• Arabic- Full ability to speak and write Arabic as a mother language.

• English- Proficiency to speak and write in English as a second language.

• Melayu- Being able to speak a little bit of Melayu.

Organizational Skills

• Time Management- I have been experiencing it since I started primary school by scheduling my time.

• Planning- Able to select priorities and results and how those results will be achieved.

• Leading- Having the ability to establish a direction and influence people to follow that direction.

• Skilled Team Worker- I have worked with classmates in university in order to achieve highly recognized pieces of work and with colleagues to develop creative contents.

Personal Attributes

• High productivity which I trained through my working experience by coming up with new designs or helping to do so.

• Great capability to handle pressure. I gained this skill by handling a lot of assignments that were given at the same time.

• Goal oriented. My goals are set and my achievements are determined.

• High level of generating ideas. I learned how to generate ideas through mind mapping and brainstorming.

• Highly-motivated. This makes me able to work in any environment and under any circumstances.

Interests

• Football

• Martial arts

• Swimming

• Reading
