University Vision, Mission and Goals:

University Vision:

To become one of the leading and distinguished universities regionally and internationally.

University Mission:

The University of Science and Technology strives to provide an excellent education service, enhancing student knowledge and skills that meet the requirements of the labor market, contributing to community development by providing training, advisory, and research services and the continuing education programs through competent administrative and academic staff, stimulating learning environment, and cutting-edge programs. The University shall expand local, regional, and international partnerships according to the comprehensive quality systems, transparency, and the professional ethics.

University Goals:

1. Enhance student knowledge and skills in various academic disciplines.
2. Contribute to support efforts of practical and scientific research in all different areas.
3. Link the learning outcomes with the requirements of the labor market to ensure the graduates are employable
4. Provide the necessary infrastructure to support the learning process and students' services and activities.
5. Provide opportunities for education in separate locations for male and female students.
6. Expand the partnerships and develop the relationships with other universities and institutions of scientific research domestically, regionally, and internationally.

Faculty Vision:

To achieve the leadership in dentistry through producing competent dentists at the regional and global level.

Faculty Mission:

The College of Dentistry strives to be one of the premier colleges at the local, regional and international level, through raising the performance level in the academic and administrative aspects, providing conducive environment for learning and training and conducting practical research, as well as upscale therapeutic services to the community. It also seeks to produce competent dentists capable to apply their skills and experiences that they have learned with efficiency.

College Goals:

1. Provide high level of education and training to ensure rehabilitation of dentists with high standards of efficiency.
2. Develop the curricula and course structures to ensure the student's involvement in the self- learning process and development of continuing education to meet the standards of quality and accreditation.
3. Provide oral and dental health service to the people through dental clinics in the college.
4. Develop skills of faculty members to keep pace with the developments in the methods of teaching and learning process.
5. Activate the partnership and development of relations with the other dental colleges/peers and institutions of scientific research locally, regionally and internationally.
6. Contact with the graduates of the college and link them with the college to develop their research and professional expertise.
