

Course Specification of Medical English

Faculty : Faculty of Medicine and Health Sciences

Department: Human Medicine

Program : Bachelor of Medicine and Surgery (MBChB)

I. General information about the course instructor :							
Name	---	Office Hours(3 Hours Weekly)					
Location & phone number	---	Sat	Sun	Mon	Tue	Wed	Thu
Email	----						

II. General information about the course:						
1.	Course Title :	Medical English				
2.	Course Code and Number :	BMD05				
3.	Credit Hours :	Credit Hours				Total
		Theoretical	Seminar/Tutorial	Practical	Training	
		2			2	
4.	Study Level and Semester:	1 st year, 2 nd semester				
5.	Pre-requisites (if any):	-				
6.	Co-requisites (if any):	-				
7.	Program in which the course is offered:	Bachelor of Medicine and Surgery (MBChB)				
8.	Teaching Language:	English				
9.	Instruction location:	The big hall				

I. Course Description

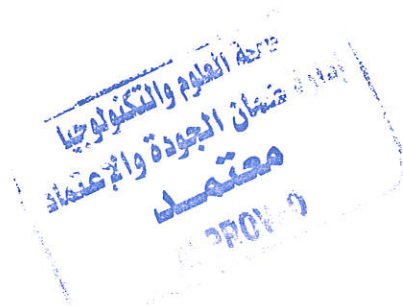

This course aims to provide medical students with modern medical terminologies. It will give them guidelines and morphological rules with the help of which medical terminologies are coined or formed.

II. Course Aims:

1. Expose medical students to structure and formation of medical terms.
2. Enhance their capabilities to understand different medical terms

III. Course Intended Learning Outcomes (CILOs) :

1. Describe the structure and forms of different medical terms and know the origin of different medical terms
2. Criticize medical and clinical passages paragraphs and understand medical terms in them.
3. Write a proper medical record and case report using specific medical terminology
4. Present a patient case using Medical English in clear and understandable manner
5. Communicate effectively with his/her colleagues of different level and specialty using clear and understandable Medical English.
